

## What We Can Do For You

We are pleased to offer you the best pricing, service, and fastest delivery for hidden television mirrors. Our products include mirrors for the bedroom and living room which give you flawless HD quality straight through the mirror. Our bathroom mirrors have a brilliant reflection for shaving and makeup application. The size of our mirrors can be customized to fit the design of your project.

## Vanity Mirror TV

Our Vanity Mirror TV combines a 17" ultra-thin LCD ingeniously crafted into a large mirror. Installation is a breeze because you can get it set up within minutes. This is an easy way to upgrade the décor of your already existing bathroom, or complete the style of your bathroom under construction. The TV comes with a waterproof remote, allowing operation of the TV from anywhere within your bathroom – including your tub, shower, or jacuzzi – with no worry about getting it wet. Because the speakers are built into the system, there's no need to add external speakers. Vanity mirrors are available in both standard and premium quality. Premium glass has a 20% brighter reflection and allows 40% more light from the TV to pass through the mirror. Our Premium ClearChrome Mirror will also match regular mirrors in the same room.

*Custom Sizes Available*

## Dielectric Mirror

Covers any flat-screen TV in areas where picture quality is as important as having a beautiful mirror. The mirror coating is very thin, allowing most of the light to pass through freely. Just enough light is reflected from its surface to create a mirror effect, keeping glare to a minimum.

## Premium ClearChrome Mirror

Our Premium ClearChrome Mirrors are designed to have the same reflectivity and appearance as a standard bathroom vanity mirror. They can be combined with other mirrors in any room for a beautiful seamless design, preserving your room's décor. Because the reflection is so crisp, the mirrors are ideal for use as bathroom vanity mirrors.

## 22" - 65" Samsung LED Mirror TV

Our Samsung LED Mirror TV is the cutting edge of hidden television technology. The televisions we carry have flawless 1080P HD picture quality and offer incredible brightness from the LCD. The TV, mirror, and frame are fully integrated together, making for an incredibly thin and seamless design. Installation is just as easy as installing any television. A model designed to be recessed into your wall is also available for custom installations. You can buy directly from us for a price far lower than other vendors. We can customize the frame color and style to compliment the decor of your room. In addition to the Samsung Mirror TV, we also offer Phillips, Sony, Hitachi, Sharp, and Viewsonic.
