Smart TV with Web-Connected Samsung Apps

Samsung Smart TVs allow you to easily search for movies, TV shows, explore Samsung Apps, chat with friends and find many other types of new interactive TV content. Samsung Apps is a growing collection of premium apps specifically built for your TV that connects you to your favorite digital content such as movies from Netflix or Blockbuster, TV shows from Hulu Plus, videos from YouTube, Next Level sports information from ESPN, music from Pandora, and social updates from Facebook or Twitter. Samsung's Smart TVs also include a Search All feature so you can find videos via apps or other connected devices and a recommendation engine which suggests movies you might like from your Video-On-Demand services.

Ultra Clear Panel

Sometimes you can't keep sunlight or house lights from shining right on your TV screen. With Samsung's Ultra Clear Panel, you can still get an amazing picture even with reflective light. Ultra Clear Panel absorbs most ambient light and virtually eliminates reflections so there are hardly any distractions. Ultra Clear Panel also helps make colors more vibrant with deeper blacks and enhanced contrast for crisper images and excellent shadow detail.

Sync media from multiple devices with AllShare

Samsung's AllShare lets you sync up many of your DLNA-enabled digital devices so you can access music, movies and photos right on your Samsung TV screen. Files on your PC, camera and mobile devices can wirelessly and effortlessly be available right on your TV.

Anynet+™

ConnectShare™ Movie

ConnectShare Movie lets you watch videos, play music or view photos from a USB drive. Simply plug your USB directly into your Samsung TV's USB port and watch on the big screen with friends and family.

Wide Color Enhancer Plus

Wide Color Enhancer Plus allows you to see picture color the way the director originally intended. Witness the entire RGB spectrum brought to life on your screen to bring you exceptionally vibrant, yet natural-looking images faithful to the director's original intent.

Clear Motion Rate 240

Clear Motion Rate (CMR) is Samsung's more comprehensive and accurate measure for how well an LCD or LED TV can display fast-moving images. Previously, motion clarity was expressed simply by the refresh rate, measured in Hz. CMR, however, takes into account all three factors that contribute to motion clarity: panel refresh rate, image processor speed and backlight technology. CMR is measured by determining the thinnest line a TV can display in a moving image. The thinner the line, the higher the CMR rating, and the clearer the picture you'll enjoy on the screen.

Eco Sensor

Our unique Eco light sensor measures the intensity of the room's light and automatically calibrates the brightness of the image on the screen. In a sun-filled environment, the screen gets brighter and in dim surroundings, the intensity is reduced. This feature optimizes the viewing experience while also saving you a little energy.

HDMI

With HDMI, you can easily connect up to four compatible AV devices at the same time and replace AV cables with a single solution. An HDMI cable can replace anywhere from two to five cables so you can de-clutter your entertainment space with fewer wires.

Swivel Stand

Set up your Samsung TV perfectly with the built-in swivel stand. Samsung Swivel stands allow you to turn your TV around 10 degrees to the
